Cajatres Acquisition (1/5)

The Opportunity

- Oliver Wyman's stress test of the Spanish banking system released in September 2012 identified a capital deficit at Cajatres of €779mm (7.5% RWA) under the adverse scenario. Consequently, Cajatres was classified as Group 2¹ entity
- The European Commission and the Bank of Spain required Cajatres to integrate into a larger financial group. On May 23rd, 2013, Ibercaja Banco agreed to acquire Cajatres. Effective acquisition took place in July 2013

Preconditions that Minimised the Transaction Risk

- Before the integration, several restructuring measures had to be accomplished by Cajatres:
 - ✓ Transfer to SAREB ("bad bank") of Real Estate Assets (net amount of €2.2bn) (February 2013)
 - ✓ Issue of Contingent Convertible Bonds (CoCo's), €407mm, subscribed by FROB (March 2013)
 - ✓ Burden sharing of hybrid capital instruments (subordinated debt), limited to institutional investors (profit of €39mm) (June 2013)
 - ✓ Labour agreement in Cajatres to reduce number of employees (592; -23%) and branches (187; -32.4%)

All these measures were implemented before integration with Ibercaja Banco

¹ Denomination established by the Memorandum of Understanding referring to banks with a capital shortfall, identified by the stress test, which needed State aid to cover it
