# Net interest income

## Net interest income evolution

## Customer spread

## Customer spread YoY increase vs peers<sup>1</sup>

### Remarkable performance of net interest income with an increase of 48.9% YoY to €158m in 1Q2023.

- **Customer spread grows 126 bps YoY** boosted by growth in loan yield of 140 bps. On the other hand, the cost of deposits remains contained thanks to Ibercaja's strategy of diversifying customer funds towards AuM & life insurance products
- As a result of both trends, **Ibercaja is the Entity with greater relative increase in customer spread among its peers.**
- The end of TLTRO and the increase in wholesale funding costs contribute negatively to NII evolution.

<sup>1</sup>Peers include: Sabadell ex TSB, Unicaja, CaixaBank and Bankinter.

# Net fee income

## Net fee income evolution

€m

## Non-banking fees

€m

## Non-banking fees QoQ

%

### Net fee income reaches €109m, a decrease of 2.6% YoY.

- Banking commissions decline €1m or 1.8% YoY.
- Non-banking commissions evolution is impacted by the fall in financial markets in 2022. However, they increase by 2.2% QoQ as a result of the strong inflows into mutual funds and positive market evolution. The **strong increase in net inflows in the last two quarters will drive growth in net fee income in coming quarters.**

# Recurring revenues and gross operating income

## Recurring revenues

€m

## Gross operating income evolution

€m

### Recurring revenues grow 25.8% YoY in 1Q2023.

- The main driver of this increase is net interest income (€+52m YoY) thanks to the strong evolution of the customer spread.

### Gross operating income raises 10.1% YoY driven by the increase in recurring revenues, which offsets lower trading income and other operating income and the impact from the temporary bank tax.

- In 1Q23 Ibercaja has already accounted for the temporary bank tax which amounts to €-29m. **Gross operating income excluding the temporary bank tax increases 22.1% YoY.**

# Operating costs and recurring profit before provisions

## Operating costs

€m

## Recurring cost to income ratio

%

## Recurring profit before provisions

€m – Recurring revenues – recurring costs (ex. bank tax)

### Operating costs increase +6.2% YoY due to the increase in staff costs in the quarter.

- Inflation compensation payment in 1Q to the employee base amounts to €6m. Excluding this, operating costs increase by 1.8% YoY, well below current inflation rates

### Positive jaws allow for:

- **Recurring cost to income ratio** improvement to **51.6%** (vs. 61.1% in 1Q2022).
- **Recurring profit before provisions** growth of **56.7% YoY** to €141m in 1Q2023.

### Pre-Provision Profit grows 15.7% YoY.
